Prog on statistics held

BELAGAVI, DHNS: KLS Gogte Institute of Technology (GIT) Department of Master of Business Administration (MBA) conducted a two-day faculty development programme (FDP) on 'Statistical Interventions for Research' for two days recently.

Principal A S Deshpande, in his presidential remarks, said that research is the buzzword in the industry and academics. It gives new ideas, insights and new ways of working to cater to the needs of ever changing scenarios.

The research when applied properly, equips the institution to handle new and unseen challenges. The benefits of applying the research insights are multifold, he stressed.

Dr Sachin Kamble, Faculty, NITIE, Mumbai present as resource person said, it's the need of the hour to encourage young researchers to conduct quality research. Research helps to contribute to academ-

ics, management, society and various other areas.

He also threw light on the latest modern statistical tools which could assist researchers for in-depth research endeavours.

Head of Department of MBA P M Kulkarni said that faculty development programmes contribute to the professional and intellectual development of teachers working at different academic institutions. Main objective of the programme was to enhance research skills.

FDP shall have many take-aways and will also ensure participants getting enriched out of it, he said.

FDP witnessed 35 participants from various academic institutions availing the benefits. Prof Sachin Kamble; Prof Rohit Mutkekar of Goa Institute of Management, Goa; Prof P M Kulkarni and Prof Prasad Kulkarni were the resource persons for the course.
