### Finishing school certification course

**BELAGAVI:** KLS Gogte Institute of Technology (GIT) inaugurated the Finishing School Certification Course 2015-16 for final year mechanical and industrial and production engineering students organised by Industry Institute Partnership Cell (IIPC) recently.

IIPC Chairman Vinay Jathar briefed the audience about the finishing school concept and IIPC activities in GIT.

Industrialist Mahesh Birangi, Managing Director, Pragati Engineering, present as guest of honour, highlighted the benefits of industry institute interaction, Make in India concept and how the certification course in GIT was beneficial to fresh engineering graduates.

GIT Governing Council Chairman Uday Kalkundrikar encouraged students

and staff to take new assignments and thanked the industries for their cooperation in conducting the certification course by providing their facility, knowledge and experience to assist budding engineers.

Principal A S Deshpande enlightened the students about the importance of undergoing such certification course.

Deshpande also encouraged the students to take more challenging assignments and projects from industries.

Dr Anupama Kallol, IIPC staff coordinator, in her welcome address, explained about the finishing school concept and how the course would enhance technical skills of final year students in theory and practical and make them industry ready.
